Inseego MiFi® PRO M4335
The Exclusive Device for Verizon Business Internet On-the-Go

About Inseego

As a U.S. based company, we design and develop all our products in the USA and hold them to the highest security standards. Our products and solutions are trusted by top tier carriers, government entities, and Fortune 500 enterprise customers.

Fast, reliable connectivity for business

Experience Verizon 5G and dual-band Wi-Fi 7 performance designed to keep business operations moving.

Secure business connectivity

Enterprise security features, WPA3 encryption, FIPS 140-2 certification, and TAA compliance help support security-sensitive deployments.

Business-ready networking

Unlock advanced routing software features for demanding business applications, including VPN support, port forwarding, firewall controls, and static IP capabilities.

Connect more, stress less

Connect up to 50 Wi-Fi devices on one secure network, or plug in with USB-C and Ethernet when you need rock-solid wired performance for point-of-sale, video conferencing, or business applications.

Flexible deployment options

Support temporary locations, job sites, events, and business continuity needs with battery or AC-powered operation.
